

Year 2 Term 3

'Once upon a time'

Which material is the most suitable?

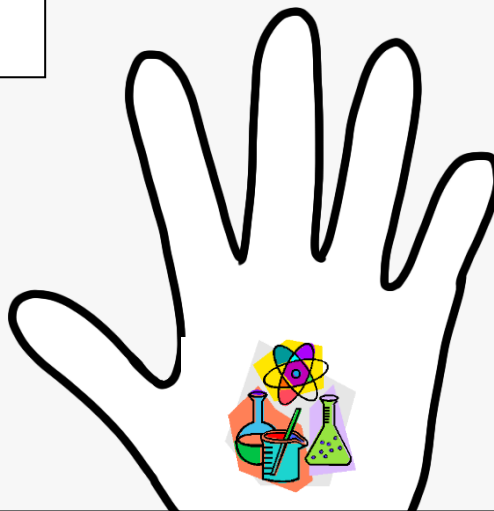

Identify, name, sort and group

Gather and record data

Ask questions and use observations to suggest answers

Perform simple tests

Our Fingertip Skills

As a Scientist I will ...

Ask questions about the suitability of a variety of materials used for different jobs.

Predict and reason why one material is more suitable than another based on their properties.

Identify the suitability of a variety of materials for various jobs through testing different materials.

Gather and record data to draw conclusions and answer questions.

So that I can...

Contribute to a class investigation to identify the most suitable materials to make a castle that can withstand a 'boulder' attack.
