

**Year 2 Home Learning Log** 20<sup>th</sup> March 2020 Learning Logs will be uploaded to our school website on a weekly basis. Please pick the activities from the grid that inspire you. You can do as much or as little as you like, just have lots of fun learning together at home. Please send photographs to share your learning with us via [enquires@chandagininfant.org.uk](mailto:enquires@chandagininfant.org.uk); we can't wait to see what you've been learning.

Miss Willington and Miss Goebel ☺

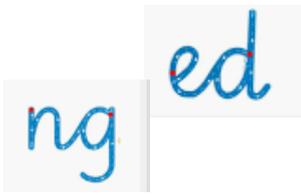

**Handwriting**

Some ideas for practising your letters

- Draw them on paper using different colours each time - rainbow writing.
- Pour rice or sand onto a tray and have a go at writing your letters, feel each movement. Sandpaper works too.
- Try to write a line of the letters without taking your pencil off the page.
- Dip your finger in water and then form your letters on the table, feel the flow.
- Use a stick to draw them in the mud.

These are the joins we will be joining next week so have a go at home.

Try thinking of as many words as you can with these letters.

**Maths**

Please go on a shape hunt around your house. How many 2D and 3D shapes can you find? Here are some games to practise using maths language...

- Guess my shape 'I spy' Describe an object to someone else using key words. Can they guess it?
- Pictionary - draw the shape or an object using 2D shapes, can someone guess the shape?
- Make a 'Guess Who' style board game with flaps, write clues for each shape and then draw the shapes underneath.
- Make your own shape 'Colour by Numbers' and ask someone to colour it in for you. E.g. pentagons are blue, triangles red.
- Look at the symmetry of the faces of members of your family, try and draw a symmetrical picture. Or look in a mirror and draw a self portrait!
- Google flags of the world. Which flags have a line of symmetry?
- Make 2D shapes on the Geoboard app - see below

**Reading**

Please read as much as you can with an adult each week so that you can be a reading rocketeer. Some ideas to keep reading fun:

- Skype call family members and read them a story or ask them to read a story to you.
- Use the iPad to go on Oxford Owl and read some of your favourite books on screen.
- Start a chapter book and ask your grown up to read you a little bit each day.
- Help to read the instructions on food packages for your adults to help them out in the kitchen.
- Go on Pobble 365 and read about the daily picture. <http://www.pobble365.com/>

Just like we do whole class reading, have a go at whole family reading and ask each other questions about the book. Have a look at the attached sheet for question ideas.

**English**

Look at the dragon eye picture or the dragon eye you made at school.

Pretend you are a dragon flying above an imaginary world. What does this world look like through your dragon's eyes? Draw it and label it. When you have generated your ideas, write a story about your dragon's adventures.

Remember to use every time I write in your story and paint a picture of the reader using adjectives and adverbs.

<b>Topic</b>	<b>P.E.</b>	<b>Mindfulness</b>
Research castles around the U.K. Make a model castle out of lego or junk and think about how a castle could be put under siege. Plan and carry out a castle attack. This website has lots of great ideas <a href="http://www.primaryhomeworkhelp.co.uk/castles/index.html">http://www.primaryhomeworkhelp.co.uk/castles/index.html</a>	<a href="https://www.youtube.com/user/CosmicKidsYoga">https://www.youtube.com/user/CosmicKidsYoga</a> Have a go at some yoga and get some of your family to join in too. Caroline would be proud!	Take your pencil for a walk around the page and make a swirly doodle. In each part of the doodle write something that makes you happy. Colour it all in carefully when you're done and put it up on the fridge or in your bedroom.

**Online activities - remember to monitor your screen time, little and often is best.**

- Doodle Maths - Log on and have a go at the activities that have been set for you by your teacher.
- Spelling Shed - Challenge yourself to beat your best score and earn honey pots to change your avatar.
- Geoboard maths - <https://www.mathlearningcenter.org/resources/apps/geoboard>
- Oxford owl reading - <https://www.oxfordowl.co.uk>
